

## Centre of HOPE, Hyderabad

This quarter we visited Zilla Parishad Govt. High School and Govt. Junior College, Nampally to encourage the students to learn computers along with their regular studies. We had a meeting with the principal of the school and we told them about our programs and how we are helping children in their studies through education CDs. We got a good response from the students who attended the classes. They were also very interested to learn English as they are studying in the Tamil language.

## Statistics

### Youth students

Number of students	Boys	Girls
Beginning of October	22	50
