

HOPE foundation school, Bangalore

Praveen Kumar

Praveen knows that his parents struggle to provide for their family. They are trying their best to give him a good education on the INR 3000 (USD 60) they make in a month. Because of his work as a laborer, his father had to be hospitalized. This has left them with a lot of debt, but his parents are still keen to educate him. They enrolled him in the HOPE foundation school.

To his credit, Praveen has taken up his education as a challenge. He is in the 6th standard and has opted to study in English as he knows that it will benefit him. Praveen is a very intelligent and hardworking student. He regularly scores an average of over 75% in all his subjects. His parents and his teachers are very proud of him and they are grateful to HOPE foundation for giving him a good education.

Shalini

Shalini's mother was at a crossroad 3 years ago. Her only options were to let her daughters stay at home or get work as housemaids. She was in this situation as her husband was not helping at home. But, HOPE foundation offered her a better choice. She gladly opted to send her daughters to the HOPE foundation school. She is very grateful for the opportunity to send her daughters to the school. Her mother cannot imagine what Shalini's life would have been if HOPE foundation was not there to give her the best choice.

Shalini is in the 6th standard and her younger sister is in the 4th standard. Shalini is doing well in her studies and she is very good in extra-curricular activities. She dreams of becoming a computer engineer and earning well to support her family in the future.
